Professional Summary

Frontend Engineer with 3+ years of experience building production web and mobile applications using React, React Native and TypeScript. Experienced in developing scalable user interfaces, optimizing application performance, integrating REST APIs and building maintainable component-based architectures. Passionate about creating intuitive, accessible and high-quality frontend experiences while collaborating closely with product, design and backend teams.

Technical Skills

Frontend: React, Next.js, TypeScript, JavaScript, HTML5, CSS3, Tailwind CSS

Mobile: React Native, Flutter

Backend: Node.js, Express.js, REST APIs

Databases: PostgreSQL, MongoDB, Oracle Database

Cloud & DevOps: AWS, GitHub Actions, GitLab CI/CD

Tools: Git, GitHub, Postman, Jira, DBeaver, Chrome DevTools

Practices: Component-Based Architecture, Performance Optimization, Responsive Design, Accessibility, Clean Architecture, Agile

Professional Experience

Banana Software S.A.S. – Software Developer

December 2022 – January 2026

- Developed and maintained production React and React Native applications supporting commercial and administrative workflows.
- Built reusable frontend components and complex interfaces with filtering, search, pagination and efficient state management.
- Integrated REST APIs, validated data contracts and handled edge cases to improve application reliability.
- Improved frontend performance by reducing unnecessary re-renders and redundant API requests.
- Collaborated with backend engineers, designers and stakeholders to deliver scalable user-facing features.
- Participated in code reviews, technical interviews and architecture discussions.

Key Projects

B2B Commercial Platform Developed data-intensive interfaces for large product catalogs with advanced filtering, pagination and responsive layouts.

Augmented Reality Mobile Apps Built cross-platform mobile applications and managed releases to Google Play and the App Store.

Internal HR Platform Developed a full-stack internal platform for vacation, payroll and employee documentation management.

Corporate Website Implemented responsive, accessible frontend interfaces with a focus on performance and cross-browser compatibility.

Education

Technical Degree in Programming – TECLAB (2022–2025)
